Geology of Northern Ireland: our natural foundation has been converted to a series of articles for this wiki. The book is available for purchase at the [BGS Online Shop](https://www.bgs.ac.uk). Its full reference is:

### Pages in category ‘The geology of Northern Ireland’

The following 87 pages are in this category, out of 87 total.

- [Geology of Northern Ireland: our natural foundation](#)
- **A**
  - [Antrim Lava Group, Palaeogene extrusive igneous rocks, Northern Ireland](#)
  - [Argyll Group, Dalradian Supergroup, Central Highlands (Grampian) Terrane, Northern Ireland](#)
Base metals, mineral resources, Northern Ireland
Basement structure and the terrane model of Northern Ireland
Bulk minerals, mineral resources, Northern Ireland

Carboniferous of County Armagh, Northern Ireland
Carboniferous of County Fermanagh-south County Tyrone area, Northern Ireland
Carboniferous of County Londonderry, Northern Ireland
Carboniferous of East County Tyrone, Northern Ireland
Carboniferous of the Fintona Block, Northern Ireland
Carboniferous of the Newtownstewart Outlier, Northern Ireland
Carboniferous, Northern Ireland
Carlingford Complex, Palaeogene intrusive centre, Northern Ireland
Central Highlands (Grampian) Terrane - metamorphic basement, Northern Ireland
Cretaceous, Northern Ireland
Cretaceous-Palaeogene (K-T) Boundary, Northern Ireland

Dalradian Supergroup, Central Highlands (Grampian) Terrane, Northern Ireland
Deformation and regional metamorphism of the Dalradian, Northern Ireland
Depositional environment and tectono-depositional model for the Triassic in Northern Ireland
Derrygonnelly-Marble Arch-Cuilcagh Mountain, Fermanagh-south Tyrone area, Carboniferous, Northern Ireland
Devonian stratigraphy, Northern Ireland
Devonian, Northern Ireland
Diamonds and semi-precious gems, mineral resources, Northern Ireland
Dykes, minor igneous intrusions, Palaeogene, Northern Ireland

Early Carboniferous basins in Co. Fermanagh and south Co. Tyrone, oil and gas, mineral resources, Northern Ireland
Early Midlandian–Middle Midlandian, Pleistocene, Northern Ireland
Eastern Carboniferous outliers of Ballycastle, Cultra, Castle Espie and Carlingford, Northern Ireland

Fivemiletown-Clogher-Aughnacloy-Benburb, Fermanagh-south Tyrone area, Carboniferous, Northern Ireland
Fuel minerals, mineral resources, Northern Ireland

Geohazards, Northern Ireland
Geophysical domains, Northern Ireland
- Geophysical lineaments: faults and terrane boundaries, Northern Ireland
- Geophysics and concealed geology, Northern Ireland
- Granodiorite plutons, Newry Igneous Complex, Late Palaeozoic intrusives, Northern Ireland

H
- Hibernian Greensands Formation, Cretaceous, Northern Ireland
- Holocene, Northern Ireland
- Hydrogeology, Northern Ireland

I
- Introduction to the geology of Northern Ireland

J
- Jurassic, Northern Ireland

K
- Kesh-Omagh, Fermanagh-south Tyrone area, Carboniferous, Northern Ireland

L
- Lamprophyre intrusions, Newry Igneous Complex, Late Palaeozoic intrusives, Northern Ireland
- Late Midlandian, Pleistocene, Northern Ireland
- Late Ordovician-early Silurian sedimentary cover sequence, Midland Valley Terrane, Northern Ireland
- Late Palaeogene (Oligocene) sedimentary basins, Northern Ireland
- Late Palaeozoic intrusives, Northern Ireland
- Lisnaskea, Fermanagh-south Tyrone area, Carboniferous, Northern Ireland
- Litho- and biostratigraphy, Carboniferous, Northern Ireland
- Lough Neagh Group, Late Palaeogene (Oligocene), Northern Ireland

M
- Mantle plumes, ocean spreading and the North Atlantic Igneous Province, Palaeogene extrusive igneous rocks, Northern Ireland
- Mercia Mudstone Group, Triassic, Northern Ireland
- Midland Valley Terrane, Northern Ireland
- Mineral resources, Northern Ireland
- Modelling, geophysics, Northern Ireland
- Mourne Mountains Complex, Palaeogene intrusive centre, Northern Ireland

N
- Newry Igneous Complex, Late Palaeozoic intrusives, Northern Ireland
O

- Oil and gas, Northern Ireland
- Other major Caledonoid lineaments and faults, Northern Ireland

P

- Palaeogene intrusive igneous rocks, Northern Ireland
- Palaeogeographical and environmental reconstruction, Carboniferous, Northern Ireland
- Penarth Group, Triassic, Northern Ireland
- Permian stratigraphy, Northern Ireland
- Permian, Northern Ireland
- Permo-Triassic basins, oil and gas, mineral resources, Northern Ireland
- Pleistocene, Northern Ireland
- Plugs, minor igneous intrusions, Palaeogene, Northern Ireland
- Post-Mesozoic (post-Variscan) structural history, Northern Ireland
- Post-Variscan deformation and basin formation, Northern Ireland
- Pre-Dalradian basement, Central Highlands (Grampian) Terrane, Northern Ireland
- Precious metals (gold and silver), mineral resources, Northern Ireland

Q

- Quaternary, Northern Ireland

S

- Sherwood Sandstone Group, Triassic, Northern Ireland
- Sills, minor igneous intrusions, Palaeogene, Northern Ireland
- Slieve Gullion Complex, Palaeogene intrusive centre, Northern Ireland
- Southern Highland Group, Dalradian Supergroup, Central Highlands (Grampian) Terrane, Northern Ireland
- Southern Uplands-Down-Longford Terrane, Northern Ireland
- Stratigraphy and chronology, Palaeogene extrusive igneous rocks, Northern Ireland
- Stratigraphy, Southern Uplands-Down-Longford Terrane, Northern Ireland

T

- Tectonic structure and metamorphism, Southern Uplands-Down-Longford Terrane, Northern Ireland
- The Grampian Orogeny, Midland Valley Terrane, Northern Ireland
- The influence of people in Northern Ireland, Northern Ireland
- Triassic, Northern Ireland
- Tyrone Igneous Complex, Midland Valley Terrane, Northern Ireland

U

- Ulster White Limestone Formation, Cretaceous, Northern Ireland
- Ultramafic-intermediate complex, Newry Igneous Complex, Late Palaeozoic intrusives, Northern Ireland
