Information resources on groundwater in Africa

This section provides more background information on many different aspects of groundwater and hydrogeology in Africa, and links to more detailed resources.

[Supporting geological and environmental information](#)

These pages have information on the geological and other environmental maps and graphs on the country pages: how they were developed, and links to original data sources.

The hydrogeology of groundwater in Africa

- [An overview of groundwater in Africa](#)
- [Hydrogeology maps of Africa](#)
- [The Africa Groundwater Atlas country hydrogeology maps](#)
- [Aquifer properties](#)
- [Recharge](#)
- [Groundwater quality](#)

Developing groundwater resources

- [Introduction to groundwater development procedures](#)
- [Borehole Drilling](#), including professionalising drilling
- [Manual drilling](#)
- [Siting Boreholes](#)
- [Siting Boreholes: Reconnaissance](#)
- [Assessing source yield](#)
- [Assessing water quality](#)

Groundwater management and use

- [Resources to support groundwater management](#)
- [Groundwater use in Africa](#)

Key Groundwater Issues

A series of pages covering key issues relating to groundwater in Africa.

- [Urban groundwater in Africa](#)
- [Groundwater and irrigation in Africa](#)
- [Transboundary aquifers](#)

Case studies

- A series of **case studies** that illustrate different groundwater understanding and management issues across Africa.

[Groundwater Data](#)

Information on and links to sources of groundwater data in Africa.

[Groundwater Research in Africa](#)

Information on key current and past groundwater research themes and projects in Africa.

[Educational Resources](#)

Information and resources to help explain groundwater issues and hydrogeology.

[Groundwater Organisations in Africa](#)

Links to some of the many professional networks and organisations offer support to those working in groundwater and hydrogeology in Africa.
