Summary

description

English: Figure 4 The Early Carboniferous structural pattern across southern Britain and the Southern North Sea is draped around the Midland Platform (MP). The pattern outlines inherited southwest-trending structures parallel to the Iapetus Suture in the west and southeast-trending structures in the east that may be related to closure of the Tornquist Sea. Modified from Corfield et al. (1996).

From: [Carboniferous hydrocarbon resources: the southern North Sea and surrounding onshore areas](#), edited by J. D. Collinson, D. J. Evans, D. W. Holliday, N. S. Jones. Published as volume 7 in the Occasional Publications series of the [Yorkshire Geological Society](#), Copyright [Yorkshire Geological Society](#) 2005.
