Shelley, C, and Burke, H. 2018. Model metadata report for the South Downs teaching model. *British Geological Survey Open Report*, OR/18/003.

Although a number of mapped geological faults are shown in the model area in more detailed scales of mapping, the model uses 1:250 000 scale geological map data and no faults are featured in the model area at this scale. Therefore, no geological faults are represented in the model.
